PREMIUM BIOMASS VENT

SUPERIOR DESIGN AND CONSTRUCTION

Tested and listed to UL641, Metal-Fab Premium Biomass products are specifically designed for appliances burning biofuels such as oil, wheat, cherry pits, wood pellets or switchgrass.

PRODUCTS MADE IN THE U.S.A.

Innovative inner flue locking design technology creates 130° of rotation allowing seams to be aligned during installation, while providing the cleanest joint connection in the pellet vent industry.

Continuous laser welded flue, casing and integrated silicone gaskets provide air tight seal eliminating fly ash leakage.

Superferritic corrosion resistant 444 stainless steel flue rated for 1" clearance to combustibles with a limited lifetime warranty.

Superior product quality and durability, tested for operational efficiency and effectiveness to ensure maximum product safety.

Twist-lock design for easy assembly and disassembly, no tools required.
